

PUBLIC WATER SUPPLY DISTRICT NO. 4

New Water Service:

When a customer needs to establish a new water service, they will need to come by the office to sign a Water User's Agreement. The customer will need to pay a meter set fee, deposit and a \$10.00 service charge. Deposits will be held by the District and refunded or applied to the final bill upon termination of water service. Customer will need to provide the excavation for exposing the main and setting the meter. This includes crossing a roadway, if needed. District staff will tap the main and set the meter. If an existing well is on the property, District staff will need to inspect all water lines to ensure there is not a cross connection between a well and District Water.

Deposit Rates:
