

## PUBLIC WATER SUPPLY DISTRICT NO. 4

### Shutting off Water Service:

At no time should a customer use the valve at the water meter to shut off the water to their water service. The valve at the water meter is property of the Water District and should only be operated by Water District Staff. If a customer uses the valve at the water meter and it breaks, the customer will be held responsible for the costs associated with repairing the valve. The cost could include excavation, water outages, and the replacement valve. The customer should have a shut off valve in their house. If the water service needs to be shut off at the meter please call the District Office at 573-395-4578.
